Protect Yourself

Sun damage is one of the major causes of premature ageing, along with the range of other serious effects that sun damage can cause to you skin. Remember that you need to regularly apply sunscreen whenever you are outdoors. *Dermalogica* provides the *Daylight Defense* range designed to protect and moisturise your skin.

Another major cause of premature ageing is dehydration - so drink lots of water, 1.5 to 2 litres a day is recommended, and also use a good serum and moisturiser. *Hydrofluide* by *Payot* is fantastic for plumping out those fine dehydration lines - like a big drink of water for your skin!!
